

5 OUT OF 4 PATTERNS

Sewing School: Gathering Zig Zag Technique

1. Measure a piece of heavy thread or string that is slightly longer than the fabric to be gathered. Thread a needle with this thread and knot the end. Bring thread from the back to front of fabric on one end about 1/4" from raw edge. Remove needle.

2. Using a large zig zag stitch, zig zag across fabric and over string/thread. Be sure the string/thread is in the middle of the zig zag.

3. To gather hold one end of the string/thread and push fabric down the zig zag.
