Sewing School: Installing a Full Gusset

1. Take one side of the Shorts/Leggings and mark the back crotch seam. Fold in half RIGHT SIDES TOGETHER lining up the inseams. Sew using a stretch stitch, zig-zag, or serger.

Repeat with other leg piece. Turn one leg RIGHT SIDE OUT.

2. With the one leg that is RIGHT SIDE OUT, match one inseam point of gusset to top of leg inseam with RIGHT SIDES TOGETHER and pin. Without stretching, pin* gusset along front and back rise of Shorts/Leggings then once more in between. Sew using a stretch stitch, zig-zag, or serger.

I HIGHLY recommend using Washaway Wonder Tape for this step instead of pins. It really helps keep the gusset in place!

3. Place leg inside other leg with RIGHT SIDES TOGETHER. Match up center front and center back of Shorts/Leggings. Flip up gusset and match to other leg. Pin or tape in place. Sew using : stretch stitch, zig-zag, or serger.
